## Installation type

This computer currently has Microsoft Windows XP Professional on it. What would you like to do?

☒ **Install Ubuntu alongside Microsoft Windows XP Professional**  
Documents, music, and other personal files will be kept. You can choose which operating system you want each time the computer starts up.

☐ **Replace Microsoft Windows XP Professional with Ubuntu**  
This will delete all of your Microsoft Windows XP Professional programs, documents, photos, music, and any other data.

☐ **Erase the new Ubuntu installation for security**  
You will choose a security key in the next step.

☐ **Use WPM with the new Ubuntu installation**  
This will set up Logical Volume Management. It allows taking snapshots and easier partition resizing.

☐ **Something else**  
You can create or resize partitions yourself, or choose multiple partitions for Ubuntu.
